

ACCENT ON VISION

Dr. Michael Zucker founded Accent On Vision in 1991 and has over 20 years of experience. With over twenty staff members, ten of which are opticians. Accent On Vision (AOV) is readily available to meet all of your optical needs.

Located in Plaza Campana on the west side of Oracle between Ina and Orange Grove AOV consists of a precise design which must fit with set testing equipment and procedures. Two odd shaped workrooms are streamlined spaces where form follows function. The rooms explicit use is for eye exams and vision testing. Without the extensive refinement and final parti AOV would have had to lease a larger and more expensive suite. Special care was taken while designing lighting and soffits so that owner selected displays and furniture would come together seamlessly.
