

ARTHRITIS

The Arthritis Associates interior renovation project is located on Country Club Road in one of the streets most recognizable buildings. The medical practice is devoted to the care of arthritis joint pain and ways to prevent or eliminate arthritis and the related pain. With 2700 square feet, Arthritis Associates contains a waiting area, reception, 8 exam rooms, an employee break room and toilet room, a medical lab, records room, various offices and accessible toilet rooms.

Beyond the standard amenities and finishes for a first class doctors office Arthritis Associates goes one step further and provides entry doors that are equipped with power openers. A scale has been installed flush with the surrounding floor finish to assist mobility challenged individuals measure their body weight. Every precaution has been taken to provide a comfortable visit for those in need of arthritis care or treatment.
