

DISCOVER

CHIROPRACTIC

Discover Chiropractic, led by Dr. Chris Cox, opened its most recent location on the North West side of Tucson. Located in an old Batteries Plus building on West Ina Road, this suite was almost completely gutted and re-worked. Because the original Batteries Plus suite was too large for Discover Chiropractic's needs it was split to create two suites and Discover Chiropractic utilized 1799 square feet of space. The adjacent suite was cleaned and finished out with basic materials in what the building and leasing industry refers to as a "vanilla shell" which weighed in at 1336 square feet.

This location was designed to reflect the original Discover Chiropractic look which includes exposed ductwork and structure above as well as wood laminate flooring and accent lighting fixtures.

Offices, a waiting room, reception, exam rooms, accessible toilet rooms, storage and an X-ray machine were all part of this build out.
