

MONA LISA

CLUBHOUSE

Mona Lisa apartments located in North West Tucson experienced a disastrous fire which claimed the community clubhouse. After the clean up a concrete slab remained along with an eight foot long wall which supported the undamaged electrical service for the building. The structure was rebuilt in a similar configuration with a grand vaulted gathering room, multipurpose room, a small gym, community laundry facility, food prep area, accessible toilet rooms, and various management offices and storage / utility rooms.

After the fire the residents and staff at Mona Lisa apartments are pleased to have their community put back together.
