

NATUROPATHIC

Naturopathic medicine (also known as naturopathy, or natural medicine) is a complimentary and alternative medicine which emphasizes the body's intrinsic ability to heal and maintain itself. Naturopaths prefer the use of natural remedies such as herbs and foods rather than surgery or synthetic drugs. Practitioners emphasize a holistic approach to patient care and may recommend patients use conventional medicine along side their treatments.

This small practice occupies a 1279 square foot suite near St. Joseph's Hospital in Tucson. The practice has a waiting room, reception, a break room, four exam rooms, mechanical closet, and existing toilet rooms.
