

SABINO VET CLINIC

Sabino Veterinary Care is in business to provide the best veterinary care available to your animal companions with the convenience of being right in your neighborhood. The facility is fully computerized and the equipment is state of the art, providing the best for our animal friends. Onsite digital X-ray equipment provides a superior X-ray and is friendly to the environment.

The doctors on staff include Catherine Dell'Orto DVM, MPH and Andrea Hilden, DVM and both were detail oriented throughout the project. With their guidance we designed and built one of the valleys finest animal care facilities.

The program for this Veterinary clinic included: a lobby, reception area, pharmacy, three exam rooms, a treatment area with a wet surgery table, a surgery suite, isolation room, X-ray room, storage and laundry areas, and accessible toilet rooms. A second phase which has been designed and will be constructed at a later date includes a fully functional medical gas closet with runs to the surgery areas and exhausting means. When this second phase is complete Sabino Veterinary Care will be so advanced it has automatically been added to the nations disaster plans and is poised to help with local disaster relief care of humans if need be.
